THE PRACTICAL NURSERYMAN.

A TRADE JOURNAL.

Vol. 6.

HUNTSVILLE, ALA., APRIL, 1898.

No. 4

To Nurserymen, Florists and Seedsmen.

CURRANTS TO BURN!

Is what we thought we were going to have next Spring, but we showed a few people what a fine lot of plants we had, reduced prices upon them, and they have been going off very lively. We still have a moderate surplus though, and will quote low prices till closed out. Finer plants never grew.

Standard Pears Ditto.

Everything we have said about Currants applies to Standard Pears also. We have a handsome lot of fine, smooth trees. If wanting Pears, do not fail to write us. We can suit you on both price and grading.

Free Plates of Our Specialties,

Yellow Rambler Rose, Lord Penzance's Sweet Briars, and Cumberland Raspberry, will be supplied to all reliable nurserymen who will place them in the hands of their agents and push the sale of these valuable novelties. They are "order-getters," all three of them.

Also write us if wanting

Peaches, Plums,
Cherries, Apples,
Grapevines, Gooseberries,
Raspberries, Blackberries,
Clematis, Shrubs,
Ornamental Trees, Roses.

Jackson & Perkins Co.,

Newark, Wayne Co., New York.

Fruit.

Trees and Vines become hardier, and their products better colored and better flavored when liberally treated with fertilizers containing at least 10 per cent. actual

Potash.

FREE An illustrated book which tells what Potash is, and how it should be used, is sent free to all applicants. Send your address.

GERMAN KALI WORKS,
93 Nassau St., New York.

FRANK HANCOCK,

MATHERS, WISCONSIN,

—DEALER IN—

Sphagnum Moss.

I am absolutely the only dealer in this vicinity who owns the swamp from which the moss is taken, and I personally superintend getting out the moss for my customers. I can therefore guarantee my moss to be of the very best quality and the bales to be of the largest size. Moss can be supplied in any quantity desired either in bulk or in bales. Be sure to get my prices before placing your orders elsewhere.

ENVELOPES of every kind, size and quality, at Factory Prices.

Send your samples and get quotations and save from 10 to 50 per cent. Order in time to have them sent by freight. Any other Printing, Lithographing, Engraving or Blank Books you may require can be sent at same time, at an equal saving in price.

THE PRACTICAL NURSERYMAN.

PUBLICATION OFFICE:
HUNTSVILLE, ALABAMA.
W. G. DICKSON, Printer.

W. F. HEIKES, Editor and Manager.

Issued Monthly. Sent only to those in the trade. We do not solicit subscriptions. If you value *THE PRACTICAL NURSERYMAN*, please accept it with our compliments. Our circulation covers a list of 2,300 selected names of customers and correspondents, made up through many years of active wholesale business. Every name represents a buyer of nursery stock, and this list contains only the names of those who buy at wholesale.

Advertisements 10c a line agate; \$20.00 a page; one-half page \$10.00; one-fourth page \$5.00. Advertisements must be received one week before the day of publication. Advertisements for less than \$5.00 will not be accepted. Discounts: 3 times, 5 per cent.; 6 times, 10 per cent.; 12 times, 25 per cent.

The circulation of this journal will be confined strictly to Nurserymen, Florists and Seedsmen, and only invited advertisements of articles pertaining specially to these trades will be inserted.

A New Spraying Mixture.

Another very valuable discovery has been made by Prof. R. C. Kedzie, of the Michigan Agricultural College and Experiment Station. He has discovered a spraying mixture more reliable as an insecticide than Paris green, and which does not burn the foliage of the trees, and it costs less than four cents a barrel, it is not patented, and here are his directions for making it:

Boil two pounds of white arsenic and four pounds of salsoda for fifteen minutes in two gallons of water. Put into a jug and label "poison," and lock it up. When you wish to spray slake two pounds of lime and stir it into forty gallons of water, adding a pint of mixture from the jug.

The mixture in the jug will cost 45 cents, and this is enough for 800 gallons, or twenty barrels of spray. These twenty barrels will require forty pounds of lime, which will cost 20 cents more, making the total cost 65 cents for twenty barrels, or $3\frac{1}{4}$ cents per barrel.

Its advantages over Paris green are as follows: It is cheaper, and the ingredients can be found in any village drug store; it is easily prepared and easily kept ready; it is uniform in strength; it does not injure the leaves of trees or plants; it colors the leaves white, showing how evenly it is distributed.—*Florida Farmer and Fruit Grower*.

Substitutes for Glass.

From time to time different materials have been placed upon the market as substitutes for glass, all of which have been more or less satisfactory. The most recent comer in this line is a fabric called "Waterproof Sash Paper," which is likely to supersede all others that have appeared up to the present time, both on account of its serviceable nature and its cheapness, as well as its durable character. The material in question is of American manufacture, being a perfectly translucent waterproof paper with a waxy surface. It comes in rolls 38 inches wide and 25 yards long, and unlike the foreign made fensterpappe, is ready for immediate use. When nailed on the sash it does not sag during wet weather (thus possessing an advantage over some of the materials performing a similar service), but remains perfectly taut under all conditions. Wherever sash shading or a good substitute for glass is in requisition, we should think the "waterproof sash paper" will be found to fill the bill.—*Florists' Exchange*.

Crimson Rambler Rose.

There will be seen this Easter many a magnificent plant of this rose, and doubtless they will command a large price and outsell any plant, and worthily, too. If you want to buy any for another year, don't wait till fall, for this is not the way to do it. Purchase from some reliable nurseryman the good home-grown plants they have to offer; get them within a few weeks before they are started. Pot into 7, 8, 9, or even 12-inch pots, if extra strong. Don't buy any but what are strong, and don't haggle over a few cents in the price; 5 cents' difference in price this spring may mean a dollar next spring, and your labor has been identically the same. Cut out weak shoots, if any, and shorten back the strong growths to one foot. If grown under glass, they would need to be put out of doors in September to ripen their growth, but they could be started and grown entirely out of doors till you wanted to force them. From the growth of this summer you will get the flowers for next spring, and the roots will not be disturbed. There is time enough to give a hint or two about their management this summer. The important point is to get the plants at once, while they do not feel the moving.

Hybrid Perpetual roses you can buy of our American nurserymen in the fall and force most satisfactorily the following spring; but this gorgeous Rambler should be well established before forcing is attempted.

WM. SCOTT.

—*Florists' Review*.

BULLETIN NO. 7.

SURPLUS STOCK

— FROM —

The Huntsville Wholesale Nurseries

HUNTSVILLE, ALABAMA.

Shipments from St. Louis, Chicago and Omaha

...AT...

ONE DAY'S NOTICE

WE have for the past eighteen years offered in assorted lots, at St. Louis, in spring, such stock as we had in surplus. Herein is a schedule of what we now have in St. Louis, Chicago and Omaha for immediate shipment. The stock is exclusively of our own growing at Huntsville, Alabama, fresh dug this spring, and packed in the best manner in moss, and warranted in fine condition. Everything is fine of the grade, with full fibrous roots, and not culled, as we adhere to a strict system of grading.

BELOW THE BLIZZARD LINE.

Our nurseries are far enough south to escape the severe freezing weather. Everything is bright, green and fresh—sound to the tips. Nearly all the sorts offered are standard sorts, such as most nurserymen can use in assortment with their own growing. Orders should be sent in as soon as possible, but the stock need not be shipped until wanted, as we are prepared to hold it in good condition. We have nothing for sale not offered on this list.

It will be noticed by some of our correspondents that we have refused orders the past season for several articles listed. Our fear of overselling and some countermands account for this. We ask attention to the small-sized trees offered for transplanting into nursery rows. All of the small trees, as well as the large ones, are very nicely rooted, and everything is young, smooth and bright.

We can refer to nurserymen who have bought of us in nearly every State and Territory. We can give satisfaction, and guarantee it for these shipments.

Terms—Cash with order, or 30 to 60 days from date of shipment to responsible prompt-paying parties. In box lots the price of boxes is included, but the price of boxes on orders filled from the Nurseries is extra. The cost of drayage will be charged in both cases.

For convenience in telegraphing, a cipher is given. The cipher word stands for one box only in cases where there are more than one in the same assortment.

Address,

W. F. HEIKES, Manager,

1308-1310 UNITY BUILDING,

CHICAGO, ILLINOIS.

CHICAGO, ILL., April 14th, 1898.

For further conditions concerning risk of transportation, claims, etc., see Huntsville Wholesale Nurseries' pages in THE PRACTICAL NURSERYMAN.

NOTICE CHANGE IN ADDRESS.

We have established a permanent office in Chicago, and all correspondence should be addressed to 1308-1310 Unity Building, Chicago, Ill. Our Huntsville office will remain at Huntsville as heretofore, but will be closed until the packing season opens, October 1st. In the meantime all correspondence should be addressed to our Chicago office. Mr. Heikes expects to be at Huntsville during the packing season, and will give the same careful attention to business there as in the past.

Chicago, St. Louis, Omaha.

We have established our office this spring in Chicago. The following lists show what we offer from our several distributing points. We offer our surplus stock this year in Box Lots only, except for Roses. We will break boxes in Roses and supply the assortment desired, not less than 10 of a variety. All Roses are tied in bunches of 10, and we are not prepared to rehandle them in less numbers.

The prices quoted on Box Lots include the cost of boxes and the freight from Huntsville to our several distributing points—the drayage charges at these points are to be paid by the purchaser.

PERFECT DORMANT CONDITION.

Our stock is all in perfect dormant condition, and we are prepared to keep it so until the end of the season, as everything is now in cold storage.

In ordering one or more boxes of certain varieties, state what substitution will be allowed should we be sold out of lots or sorts desired. When the postoffice address and the railroad station differ, always give explicit directions for shipping with each order.

Box Lots for Sale From Chicago.

PLUMS—CHICKASAW AND OGON—TWO YEARS—On Marianna.

We will pack orders for Roses in such numbers as may be desired not less than 10 of a variety of the same grade. These plants are now tied in bunches of ten, and we have no facilities for rehandling in smaller numbers.

These Roses are all on their own roots, grown from cuttings by Heikes-Biloxi Nurseries Co., Biloxi, Miss. They are in fine dormant condition, and we are prepared to hold them in good order until May 10th, if desired.

The No. 1 plants made a growth of two to four feet, and have three or more branches cut back to 24 to 30 inches. They are handsome in tops and roots and cannot fail to give satisfaction.

Packing.—All will be packed in moss in the best manner. The price of boxes and bales is to be added to quotations. We deliver to transfer companies and the cost of drayage will follow as advance charges, or be added to the bill.

We make a grade of Roses called No. 1½. This grade will be made up of plants just under No. 1, such as do not have the required number of branches or slightly under weight and height, and makes a very nice grade for mailing.

No. 2 PLANTS OF ABOVE VARIETIES FOR TRANSPLANTING AT ONE-HALF THE PRICE OF NO. 1. The tops of No. 2 plants will be cut back to 2 or 3 inches, as they are only intended for transplanting.

Box Lots in Cold Storage in Omaha.

See Chicago address, to which all communications should be sent. A letter goes through from Chicago to Omaha in one night. When time is urgent, we telegraph orders.

GRAPES.

See February number for price list of Grape Vines. We will fill orders for these in any number desired at Fredonia, N. Y. Send your list of wants to us for special prices.

LINING OUT.

We will sell small trees for "lining out" in nursery rows, and take notes bearing interest at the maximum legal rate, payable May 1, 1899, on responsible paying parties. This offer includes Plums one and two years, 1 to 2 feet, 2 to 3 feet and 3 to 4 feet; Cherries 3 to 4 feet under ½ inch; Peaches 1 to 2 feet and 2 to 3 feet; Quince grafts, one year.

BULLETINS.

Our Bulletins will be issued weekly. Anyone failing to receive them regularly will please inform us.

SAN JOSE SCALE AND INSECT PESTS.

Our nurseries at Huntsville and Biloxi, Mississippi, have been remarkably free from the insect pests sometimes found in nurseries. No San Jose scale has ever been found in either of our nurseries, nor in the neighborhood.

CUT PRICES.

We will not cut prices nor sell anything at "Complimentary Prices" this spring, as we have sometimes done in closing out at St. Louis.

TELEGRAPHIC CODE.

Use the Nurseryman's Telegraphic Code in telegraphing. Anyone not in possession of a copy will be supplied upon application.

Stuart Pecan Co's Nursery Business

healthful, good society. Situated on the L. & N. R. R. and northern border of Gulf of Mexico. Title to land perfect. Three-fourths of a mile from R. R. depot. For full particulars address,

—present and prospective—with Nursery of 70,000 pecan trees, seedlings, grafts and buds, with good will of twenty years' business for sale. Will give immediate possession and show books of past business. Delightful place to live,

THE STUART PECAN CO.,
OCEAN SPRINGS, MISS.

HIRAM T. JONES,

UNION COUNTY NURSERIES,
ELIZABETH, N. J.

EAST SHORE NURSERIES, BENTON HARBOR, MICH.

We have established a Branch Nursery at Benton Harbor, Mich., to be known under the above name. These Nurseries will be devoted to the growing of Standard and Dwarf Pears and European varieties of Plums, and to the propagation of Quinces and small fruits.

Whatever surplus box-lots and roses we may have left this Spring will be transplanted there. There will be no cut in prices on our box-lots or roses this Spring, as we prefer to "Line-out" any surplus we have, believing there will be a good profit in doing so on anything that we have remaining by the 5th-10th of May. We will be glad for orders for anything that we have up to that time.

W. F. HEIKES, MANAGER.

1308-1310 UNITY BUILDING,
CHICAGO, ILL.

THE PRACTICAL NURSERYMAN.

THE HUNTSVILLE WHOLESALE NURSERIES PRICE LIST.

Terms and Conditions Governing Quotations in the Price List of the Huntsville Wholesale Nurseries.

RATES.—As we send this list to the trade only, we make the difference in prices between the 10, 100 and 1000 rates very slight—simply sufficient, as a rule, to cover the difference in the expense of handling in the smaller numbers. We uniformly tie in bunches of 10, when consistent with the order, and we suggest to our customers to make their orders for varieties in multiples of 10 as far as practicable. Orders for 50 and not over 300 trees, if for not less than 10 of a variety, will be charged at the rate per hundred. Orders requiring 300 trees or more, and not less than 10 of a variety, will be filed at the lowest quoted prices. Orders for less than 10 trees of one variety, will be charged at the rate per ten.

SEASON.—Our packing and shipping season begins by the 20th of September, and continues until about the first of March.

We have great advantages to offer here in early shipments for the North in Spring. We do not accept orders for trees we do not grow, as we never buy trees to sell again. You can depend upon us for fresh dug trees. Each order is taken up separately, and not until it is wanted for shipment.

SHIPPING DIRECTIONS.—We respectfully beg our patrons to furnish us with explicit *directions as to shipping*, and the mode of conveyance by which they desire trees forwarded. When no particular directions are given, we forward according to the best of our judgment. *But in no case do we assume any responsibility as to safe delivery and condition of Trees and Plants after a proper shipment by us.*

RELEASE.—When propayment of freight is not required, we will Release and Guarantee, and take forwarder's receipt and mail to consignee. It is left to the option of the shipper of trees over some railroads, whether he will release them or not under the clause "Value less than \$5.00 per 100 lbs." If released under this clause, the freight is less on roads governed by this classification, and we will assume it to be proper to make this release, without reference to the value of the trees, unless instructed to the contrary. This clause does not apply upon roads under some of the district classifications, and because of this confusion we will not be held responsible for any oversight to release, unless instructed by our customers. Claims for delay or loss must be made to the forwarders.

PACKAGES.—The cost of package must be added to the prices quoted in this list, as follows:

Boxes 30 inches square, from 7½ to 9 feet long, as the trees may require, each \$2.50; boxes 24 inches, \$2.00; boxes 18 inches, \$1.50; bales from 25c. to 75c. each.

PACKING.—Goods will be packed in moss, and especial care taken to insure their arrival in the best condition.

ASSORTMENTS.—We do not require customers to take an assortment they do not wish, but will sell one variety alone if desired. If any substitution can be allowed, either in grade or variety, it should be so stated when making the order. As a rule we do not substitute without permission.

CAUTION.—We accept all orders upon the condition that they shall be void, should any injury befall the trees from frost, hail, storm, fire, or other causes over which we have no control.

TERMS.—Cash. When desired, we will allow 30 to 60 days from date of shipment to responsible,

prompt-paying customers. Parties with whom we have had no business transactions, will save time by sending reference, with order. We wish it expressly understood that payment is expected from the first collections made, and the time named is only intended as so many days of grace in which to make returns. To northern customers, who wish to lay in stock for Spring trade, we will ship late in Fall or early in Spring, and allow time for payment till May 15th. If shipment is required in the Fall for Spring use, a note is to be given upon receipt of the trees. We do not allow any discount for cash, but we make our prices low to command cash, or prompt returns. In orders when the time is not mentioned, 30 days is to be understood. Interest at the rate of 8 per cent per annum must be paid on over due accounts. Should prices be changed, either higher or lower, during the season, the prices ruling at the time the order is made, are expected to stand.

FORMS OF PAYMENT.—All bills are payable at the office of the seller, and remittances should be made by drafts on New York, Chicago or St. Louis, or by money orders on some Express Company, or by postal orders. We will, however, accept checks from those of our customers who may be located at places having no banking, express or postal facilities, provided they make them in every case payable "with exchange", or add ¼ of one cent, to the amount of the bill for the cost of collection.

GRADES.—We grade very carefully, in some cases by caliper, in others by height. When graded by both caliper and height, the caliper must govern, as the height then named is only to be considered approximately. When graded by height or caliper, we include the lower number and exclude the higher. Instance: in a grade of 4 to 5 feet trees, the 4 feet trees are included, but not the 5 feet trees. If 5 feet trees are wanted, the 5 to 6 feet grade must be ordered.

GARANTEE OF GENUINENESS.—While we exercise the greatest diligence and care to have all our Trees, etc., true to label, and hold ourselves in readiness, on proper proof, to replace all trees, etc., that may prove untrue to label, free of charge, or refund the amount paid, it is mutually understood and agreed to, between the purchaser and ourselves, that our guarantee of genuineness shall in no case make us liable for any sum greater than that originally received for said trees, etc., that shall prove untrue.

ACCEPTANCE.—Notice should be sent us by telegraph, at our expense, if there is any cause of complaint, or should the trees be refused, stating reasons. Claims for deduction, from whatever cause, will receive consideration only when made promptly upon the receipt of the trees. If trees show any signs of shrivelling upon arrival, they can usually be restored by being thoroughly watered and buried entirely under the ground for two or three days. Should there be any frost in the trees upon arrival, they should not be removed from the box until the frost is all off. The box should be placed in the cellar or protected in some other way. The presence of frost in the boxes is not to be considered an evidence of bad condition, as we pack to secure the trees against damage, if the frost is allowed to come out in the natural way. Goods will be considered accepted if removed from the boxes in which they are packed, without notice of complaint to us and without our orders for their disposition.
